Belloc he remarked to the friend who introduced us that he was in low spirits. His low spirits were and are much more uproarious and enlivening than anybody else's high spirits. He talked into the night; and left behind in it a glowing track of good things. When I have said that I mean things that are good, and certainly not merely *bons mots*, I have said all that can be said in the most serious aspect about the man who has made the greatest fight for good things of all the men of my time. We met between a little Soho paper shop and a little Soho restaurant; his arms and pockets were stuffed with French Nationalist and French A theist newspapers. He wore a straw hat shading his eyes, which are like a sailor's, and emphasizing his Napoleonic chin. He was talking about King John, who, he positively assured me, was not (as was often asserted) the best king that ever reigned in England. Still, there were allowances to be made for him; I mean King John, not Belloc. He had been Regent, said Belloc with forbearance, and in all the Middle Ages there is no example of a successful Regent.
