Differential Diagnosis of Acute Pain: By Body Region

Stanley L. Wiener

Differential Diagnosis of Acute Pain: By Body Region Stanley L. Wiener

This uniquely organized one-volume text charts the way for early and accurate diagnosis of acute pain in specific regions of the body. No other single text provides such a user-friendly, methodical guide to differential diagnosis of acute pain.

Each chapter includes never-before-seen features for rapid review or thorough analysis of competing diagnoses. These features include:

- *pain-pattern illustrations that depict the pain site
- * a differential diagnostic list that surveys the possible causes of pain for that body region
- * a concise summary that allows for rapid review of the chapter content; detailed descriptions of each disorder in the diagnostic list with confirming physical signs, laboratory and imaging findings
- * a table of incidence that provides an estimate of the frequency of each disorder
