Programming WCF Services Juval Lowy

Written by Microsoft software legend Juval Lowy, *Programming WCF Services* is the authoritative introduction to Microsoft's new, and some say revolutionary, unified platform for developing service-oriented applications (SOA) on Windows. Relentlessly practical, the book delivers insight, not documentation, to teach developers what they need to know to build the next generation of SOAs.

After explaining the advantages of service-orientation for application design and teaching the basics of how to develop SOAs using WCF, the book shows how you can take advantage of built-in features such as service hosting, instance management, asynchronous calls, synchronization, reliability, transaction management, disconnected queued calls and security to build best in class applications. *Programming WCF Services* focuses on the rationale behind particular design decisions, often shedding light on poorly-documented and little-understood aspects of SOA development. Developers and architects will learn not only the "how" of WCF programming, but also relevant design guidelines, best practices, and pitfalls. Original techniques and utilities provided by the author throughout the book go well beyond anything that can be found in conventional sources.

Based on experience and insight gained while taking part in the strategic design of WCF and working with the team that implemented it, *Programming WCF Services* provides experienced working professionals with the definitive work on WCF. Not only will this book make you a WCF expert, it will make you a better software engineer. It's the Rosetta Stone of WCF.

From reader reviews:

Irene Gwyn:

Reading a book tends to be new life style on this era globalization. With reading you can get a lot of information that will give you benefit in your life. Using book everyone in this world could share their idea. Publications can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or their experience. Not only the storyplot that share in the books. But also they write about the information about something that you need illustration. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors on this planet always try to improve their talent in writing, they also doing some exploration before they write to the book. One of them is this Programming WCF Services.

German Montoya:

Many people spending their period by playing outside with friends, fun activity with family or just watching TV 24 hours a day. You can have new activity to spend your whole day by studying a book. Ugh, think reading a book can actually hard because you have to take the book everywhere? It ok you can have the e-book, getting everywhere you want in your Touch screen phone. Like Programming WCF Services which is obtaining the e-book version. So , why not try out this book? Let's notice.

Juan Carrillo:

Do you like reading a guide? Confuse to looking for your chosen book? Or your book seemed to be rare? Why so many query for the book? But almost any people feel that they enjoy for reading. Some people likes examining, not only science book but in addition novel and Programming WCF Services or maybe others sources were given knowledge for you. After you know how the truly amazing a book, you feel wish to read more and more. Science book was created for teacher or maybe students especially. Those publications are helping them to add their knowledge. In different case, beside science publication, any other book likes Programming WCF Services to make your spare time more colorful. Many types of book like here.

Erica Northern:

Book is one of source of know-how. We can add our knowledge from it. Not only for students and also native or citizen need book to know the up-date information of year for you to year. As we know those publications have many advantages. Beside most of us add our knowledge, also can bring us to around the world. By book Programming WCF Services we can get more advantage. Don't you to definitely be creative people? To get creative person must love to read a book. Just simply choose the best book that suitable with your aim. Don't possibly be doubt to change your life by this book Programming WCF Services. You can more desirable than now.
