Megameaning: Book One: God and the Science of Eternity William J. Berndt

You might not realize it, but science and the Bible each speak of eternal things. But wait! Isn't the word eternal reserved for that old book called the Bible? The electrons in your body do not die when you do. They are eternal. Scientists explain that this universe has an immaterial and eternal framework of laws. The picture gets much larger and incredibly exciting eternal things surround you; they are everywhere! In fact, they compose your own body! Is God more of a physicist than a theologian? This entire world of science existed before the scientists. In MegaMeaning: God & The Science of Eternity you'll begin to understand that just beyond your eyes there exists an invisible eternal framework that links it all electrons, protons, atoms, life, angels, sex, love, and you.
