**Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering)** Robert Creese, M. Adithan

This practical reference/text provides a thorough overview of cost estimating as applied to various manufacturing industries, with special emphasis on metal manufacturing concerns. It presents examples and study problems illustrating potential applications and the techniques involved in estimating costs.;Containing both US and metric units for easy conversion of world-wide manufacturing data, Estimating and Costing for the Metal Manufacturing Industries: outlines professional societies and publications dealing with cost estimating and cost analysis; details the four basic metalworking processes - machining, casting, forming, and joining; reveals five techniques for capital cost estimating, including the new AACE International's Recommended Practice 16R-90 and the new knowledge and experience method; discusses the effect of scrap rates and operation costs upon unit costs; offers four formula methods for conceptual cost estimating and examines material-design-cost relationships; describes cost indexes, cost capacity factors, multiple-improvement curves, and facility cost estimation techniques; offers a generalized metal cutting economics model for comparison with traditional economic models; and more.;Estimating and Costing for the Metal Manufacturing Industries serves as an on-the-job, single-source reference for cost, manufacturing, and industrial engineers and as a text for upper-level undergraduate, graduate, and postgraduate students in cost estimating, engineering economics, and production operations courses.;A Solutions manual to the end-of-chapter problems is available free of charge to instructors only. Requests for the manual must be made on official school stationery.

### **From reader reviews:**

#### **Malcolm Lee:**

Information is provisions for anyone to get better life, information currently can get by anyone from everywhere. The information can be a knowledge or any news even a problem. What people must be consider if those information which is inside the former life are hard to be find than now could be taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you receive the unstable resource then you have it as your main information it will have huge disadvantage for you. All those possibilities will not happen inside you if you take Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) as the daily resource information.

#### **Stanley Hanson:**

Often the book Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) has a lot details on it. So when you make sure to read this book you can get a lot of gain. The book was authored by the very famous author. The writer makes some research before write this book. This book very easy to read you can obtain the point easily after perusing this book.

#### **Emily Sandlin:**

Reading can called mind hangout, why? Because when you are reading a book especially book entitled Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) your thoughts will drift away trough every dimension, wandering in each aspect that maybe not known for but surely might be your mind friends. Imaging each word written in a reserve then become one web form conclusion and explanation this maybe you never get just before. The Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) giving you yet another experience more than blown away your head but also giving you useful information for your better life within this era. So now let us teach you the relaxing pattern is your body and mind is going to be pleased when you are finished reading through it, like winning a sport. Do you want to try this extraordinary investing spare time activity?

#### **Maria Green:**

It is possible to spend your free time to learn this book this reserve. This Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) is simple to develop you can read it in the playground, in the beach, train along with soon. If you did not include much space to bring the printed book, you can buy the particular e-book. It is make you simpler to read it. You can save the particular book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.
