My Inventions Nikola Tesla

In 1919, Nikola Tesla wrote several articles for the magazine "The Electrical Experimenter", a magazine for which he had previously written several articles. These new articles were autobiographical in nature, and have often been gathered together and published as his "autobiographical notes". This new (2013) edition has been re-edited, and illustrations (which were not present in the original 1919 versions) have been added.
