The author presents a magnificent panorama of the Popes, from Saint Peter to John Paul II. Vivid biographies are accompanied by hundreds of specially chosen illustrations that present notable portraits and famous sculptures of every Pope. The author has endeavored to present a completely objective account, realizing that the simple factual narrative is the greatest apologia for the spiritual, moral and cultural influence exerted by the successors of Saint Peter in the shaping not only of Western civilization, but in the most remote mission lands. The splendid illustrations, featuring all the traditional or actual pictures of the popes gives the work a unique and modern interest and value.
