This book, the Fifth Revised Edition of a well-known introductory textbook, has remained in steady demand for the past forty years. The new edition covers events up to the middle of 2003, and takes account of the fresh perspectives brought about by the end of the Cold War and the new global situation following the events of September 11, 2001. It is also concerned with the demographic trends which are at the heart of so many African problems today, the ravages of diseases such as AIDS and malaria, and the conflicts waged by warlords fighting for control of scarce resources. Previous Edition Hb (1994): 0-521-41946-8 Previous Edition Pb (1994): 0-521-42970-6
