Les brûlures (French Edition)

Christian Echinard, Jacques Latarjet

Les brûlures (French Edition) Christian Echinard, Jacques Latarjet

À l'hôpital ou dans les centres de grands brûlés, ce sont environ 10000 patients qu'il faut prendre en charge chaque année. Autour des chirurgiens et des anesthésistes-réanimateurs, le spectre des praticiens qui interviennent est très large. Mais une spécialité à part entière a désormais vu le jour : la **brûlologie**. Reflet de cette discipline, cet ouvrage a pour objectif d'établir **une synthèse des connaissances actuelles sur le traitement de la brûlure**.

À la fois **pratique et exhaustif**, il aborde tous les aspects du sujet : les **données générales** (épidémiologie, prévention, physiopathologie), le **traitement général** (réanimation, chirurgie et rééducation fonctionnelle) et le **traitement par localisation** (face et cou, main, membres supérieurs, thorax et seins, abdomen, membres inférieurs). Les **étiologies particulières** (brûlures électriques, chimiques ou par radiation) sont également abordées. Enfin, l'ouvrage s'achève sur plusieurs grandes questions : la micro-chirurgie, l'action humanitaire, les catastrophes, la filière de soin et les indices pronostiques.

Tous les acteurs de santé appelés à intervenir auprès des brûlés pourront faire de ce livre leur manuel de référence. **Un ouvrage unique.**

Le précis complet rédigé par une équipe multidisciplinaire pour tous les intervenants auprès des brûlés :

- Les principales données, le traitement général, le traitement par localisation, les étiologies particulières ;
- 350 illustrations, des tableaux, des encadrés reprenant les points forts.
